

## DE-CIX Indonesia Wins Two Prestigious Awards at TOP DIGITAL AWARDS 2025

Recognition for World-Class Digital Implementation Supporting Indonesia's Technology Ecosystem

**Jakarta, 4 December 2025** – DE-CIX Indonesia has received two prestigious awards at the **TOP DIGITAL AWARDS 2025**, namely **TOP Leader on Digital Implementation 2025** and **TOP DIGITAL #Stars 5 (2025)**. These awards are presented to organizations that are assessed as having successfully implemented digital technology in an outstanding and effective manner while contributing to the advancement of Indonesia's national digital ecosystem.

The **TOP DIGITAL AWARDS 2025**, organized by *IT Works*, is one of the largest ICT award events in Indonesia. The event was attended by representatives from ministries, government institutions, industry associations, and digital transformation leaders from various sectors. This year, **Ilham Habibie**, Chairman of the National ICT Council (Wantiknas), delivered the **keynote address**.

In his keynote speech, Ilham emphasized the importance of Indonesia's readiness in facing the acceleration of disruptive technologies:

*“AI will become increasingly established in the global technology industry in 2024 and is expected to continue throughout 2025 and beyond. Game-changing technologies such as AI, quantum computing, cybersecurity, robotics, 5G, IoT, AR, blockchain, and*

*cloud computing will serve as the main foundation of the digital economy,” explained Ilham Habibie, Chairman of Wantiknas.*

The two awards received by DE-CIX reflect recognition of the company’s success in delivering global-standard interconnection services that support digital transformation across various sectors in Indonesia.

As a high-technology Internet Exchange platform, DE-CIX is recognized for making tangible contributions through stable, secure, and scalable digital implementations key factors in supporting the growth of modern digital services.

During the award acceptance, **Thomas Dragono**, Director of DE-CIX Indonesia, expressed his appreciation and the company’s commitment:

*“This award is an honor for DE-CIX and serves as clear evidence of our contribution to Indonesia’s digital ecosystem. Digital technology implementation is not only about innovation, but also about providing a strong, secure, and reliable connectivity foundation. DE-CIX is committed to continuously supporting the acceleration of Indonesia’s digital transformation through global-standard interconnection services.”-*  
*Thomas Dragono, Director of DE-CIX Indonesia*

The **TOP DIGITAL AWARDS 2025** involved a comprehensive judging process that assessed how organizations in Indonesia leverage digital technology to improve efficiency, services, and competitiveness. The awards received by DE-CIX Indonesia reaffirm its role as a digital infrastructure provider that supports the growth and resilience of the national technology ecosystem.

DE-CIX Indonesia extends its gratitude to the organizers of the TOP DIGITAL AWARDS 2025, the panel of judges, and all stakeholders for their support and trust. This recognition serves

PT DECIX Indonesia Pratama  
Wisma 46 Kota BNI Suite 11-08  
Jl Jenderal Sudirman Kav 1  
Karet Tengsin, Tanah Abang  
Jakarta Pusat 10220  
Indonesia

as motivation for DE-CIX to continue strengthening national interconnection infrastructure and delivering global standards for the entire digital industry.

DE-CIX also looks forward to expanding collaboration with operators, ISPs, enterprises, cloud providers, and other stakeholders to accelerate Indonesia's digital transformation, while building a stronger, more inclusive, and competitive connectivity ecosystem at both regional and global levels.
